Intern QA Engineer | PM | UI/UX | CI/CD | Cloud Infrastructure

Senara Jayawardena

About Me

Motivated undergraduate in Computer Science at SLIIT City University with over two years of academic and hands-on project experience in software development and problem-solving.

Seeking a Software Engineering Internship to apply programming skills, contribute to real-world projects, and grow in a professional environment.

Familiar with Git, Agile development practices, and basic CI/CD concepts including automated testing, deployment workflows, and application deployment processes. Quick learner with strong teamwork, communication, and adaptability skills.

Education

Bachelor of Science (Hons) in Computer Science
Final Year Undergraduate **(2023- Present)**
University of Bedfordshire

Higher National Diploma (HND) in IT
SLIIT City University **(2025 - Completed)**

Visakha Vidyalaya, Colombo 05
bio Stream - S's 3
(2021 - Completed)

Projects

E-Commerce Platform Development
Web Application Development (WAD)

- Designed and implemented a responsive e-commerce web application
- Developed frontend interfaces and backend functionality
- Managed relational databases for product and user data

Technologies: HTML, CSS, PHP, JavaScript, MySQL
Tools: Adobe Dreamweaver

Real-Time Chat Application
Human Computer Interaction (HCI)

- Developed a real-time chat application for Android
- Implemented interactive UI components and messaging logic

Technologies: Java
Tools: Android Studio

Project Management Tool
Project & Professional Aspects (PPA)

- Built a web-based project management system
- Implemented CRUD operations and database integration

Technologies: HTML, CSS, PHP, JavaScript, JSON, Bootstrap
Tools: Visual Studio, SQL Server Management Studio, WAMP Server

Certifications

Supervised Machine Learning: Regression and Classification
DeepLearning.AI | Stanford Online

- Learned core supervised learning concepts including regression and classification
- Gained understanding of model training, evaluation, and performance metrics

Python Data Structures
University of Michigan | Coursera

- Developed strong fundamentals in Python data structures such as lists, dictionaries, and tuples
- Applied structured data handling techniques for problem-solving

Introduction to Cybersecurity
Cisco Networking Academy

- Identified common cyber threats including malware, phishing, and denial-of-service attacks
- Learned fundamental security principles such as confidentiality, integrity, and availability (CIA triad)
- Gained basic knowledge of network security, firewalls, and encryption
- Understood risk management and best practices for protecting systems and data

TECHNICAL SKILLS

- **Programming Languages**
- C, C++, Java, PHP, JavaScript, HTML, CSS, R, SQL, JSON

- **Frameworks & Libraries**
- Bootstrap, React.js, Tailwind CSS, Node.js, Next.js

- **Databases**
- MySQL, Microsoft SQL Server, MongoDB

- **DevOps & Tools**
- Git, GitHub, Docker, CI/CD Basics,

- **Design & UI/UX**
- Figma

- **Operating Systems**
- Windows, Linux
